Service Address _____

City _____ State _____ Zip _____

GENERAL GUIDELINES

- Home must be All-Electric
- Must meet Touchstone Energy Home Certification Mandatory Features
- Home must be located within 1200 ft of a natural gas line, or natural gas must be in use by an adjacent neighbor.
- HVAC contractor equipment form with all model and serial numbers listed must be attached.
- Heat loss/Heat Gain analysis must be provided by HVAC dealer.
- Application for incentives must be received by December 31, 2008 in order to receive 2008 incentives.
- Incentive is designed for the HOMEOWNER. A builder would qualify only if it is a "spec" home (home owner unknown) at the time incentive is applied for and electric service is in the name of the builder. The customer name and account information listed at the top of this application must be the service address of the Touchstone Energy Home being applied for.
- HVAC equipment efficiencies must be as rated by the Air-Conditioning Refrigeration Institute (ARI)
 - 13-13.9 SEER Air-Source Heat Pump.... Rebate \$700
 - 14-14.9 SEER Air-Source Heat Pump ... Rebate \$800
 - 15 or higher Heat Pump or Geothermal System ... Rebate \$900

Call Kenergy Member Services for inspection after insulation and prior to drywall 800-844-4832.

Mandatory Features

- Electric heat pump or Geothermal system sized and installed to ACCA standards.
Heat pump sizing will be based on a heat loss/heat gain analysis plus the lesser of 25% or 6000 BTUH
- All ductwork sealed with mastic or similar product.
- Domestic electric water heater (Minimum 40 gallon & EF of .90 or more)
- _____ 2x6 wall with minimum R-19 or
_____ 2x4 wall with minimum R-15 plus
10 recommended features
- Minimum R-38 ceiling insulation
- _____ R-19 Floor over crawlspace or
_____ R-11 Crawlspace perimeter, slab
or basement wall
- Double pane, low E windows/glass doors
