Kenergy Announces Washington Youth Tour Delegates

E ach year, Kenergy selects three high school juniors to attend the Washington Youth Tour. A team of Kenergy-area judges selected students based on their academic resume and a 1,000-word essay on the subject of their choice. Kenergy is thrilled to announce their three delegates for the 2019 Washington Youth Tour.

Ryan Ward of Owensboro – Ryan is the son of Mike and Mary Beth Ward. Ryan attends Daviess County High School.

Sophia Krampe of Henderson – Sophia is the daughter of Tony and Leslye Krampe and Bryan and Stephanie Green. Sophia attends Henderson County High School.

Ella Farmer of Providence – Ella is the daughter of Allison Farmer. Ella attends Hopkins County Central High School.

The delegates will travel to Washington, D.C. for an all-expense paid trip in June. The week-long trip will allow students to learn about leadership, the cooperative model, and also explore the nation’s capital. Our delegates will tour places like Arlington National Cemetery, Lincoln Memorial, Franklin D Roosevelt Memorial, Martin Luther King Memorial, WW2 Memorial, Iwo Jima Memorial, Korean Memorial, Vietnam Memorial, 9-11 Pentagon Memorial, the Smithsonians, Holocaust Museum, Newseum, National Archives, Library of Congress, Supreme Court, and visit with senators and representatives to learn more about energy issues.

More than 1,500 students from across America take part in the Youth Tour experience each year. The National Rural Electric Cooperative Association (NRECA) has been coordinating this program since the 1950s.

Congratulations to this year’s winners!
Traditionally, members receive a monthly bill for the electricity they’ve used. Prepaid Billing works just the opposite. This new program is completely voluntary and allows Kenergy members to choose how much and how often they want to pay before they use the electricity.

Think of Prepaid Billing the same as you do when putting gas in your car. You pay for it before you use it. You can purchase small amounts every few days or ‘fill up’ the tank and not worry about it for an extended period of time. When your supply is low, you simply purchase more.

With this new program, because participants will pay for electricity in advance, you do not have to pay a deposit, there are no monthly bills, and there are no late fees.

For more information regarding the new Prepaid Billing program, visit www.kenergycorp.com/prepaid-billing

**PAY AS YOU GO**

- **NO DEPOSIT**
- **NO LATE FEES**
- **NO MONTHLY BILLS**

---

We clear certain areas in our service territory, known as rights of way, to:

- Keep power lines clear of tree limbs
- Restore power outages more quickly
- Reduce unexpected costs for repairs

Maintaining rights of way improves service reliability for you – our members!
JEANETTE’S FAMOUS MEATLOAF

Jeanette Weedman is Kenergy’s Member Engagement Coordinator and resident chef. She’s always whipping up a tasty recipe for the office. Here’s one of her favorites!

**Ingredients**

- 2 pounds Lean Ground Chuck
- 1 Cup Minute Oatmeal
- 1 Tbsp Dry Italian Seasoning
- 1 Tsp Garlic Salt
- Pepper to Taste
- 1/2 Bottle BBQ Sauce of your choice
- 1 Packet of PictSweet Seasons Blend (in frozen section)
- 2 Eggs

**Topping**

- 1/2 Bottle BBQ Sauce of your choice
- Brown Sugar – Sprinkle generously on top

**Directions**

Add all meatloaf ingredients, mix/knead well and pat into 9x13 baking dish.

Bake at 350 degrees for 25 minutes. Remove baking dish and add topping mixture. Return to oven to bake for 10 additional minutes. Enjoy!

If you are a business wanting to participate in the Co-op Connections program, please contact Jeanette Weedman at (270) 689-6157 or jweedman@kenergycorp.com

SPRING CLEANING?

DON’T FORGET ELECTRICAL SAFETY!

Whether you go down your spring cleaning checklist by starting inside or outside, be sure to put electrical safety at the top of the list!

INDOOR ELECTRICAL SAFETY:

• Move extension cords out of high-traffic areas of the home to avoid a tripping hazard and decide whether they are still useful to you.
• Inspect cords, plugs and outlets to ensure everything is in good working condition.
• To help prevent home fires, clean appliances you may have neglected that might have buildup of things like food debris, oil and dust.
• Test your smoke and carbon monoxide detectors.

OUTDOOR ELECTRICAL SAFETY:

• Always call before you dig.
• If using a ladder, always be sure to look up and out.
• Inspect power tools and outdoor appliances before using them.
• Keep electrical cords and tools away from water, even wet grass.
