COMMITMENT TO ZERO CONTACTS

Safety culture takes a team. That's why Kenergy has made the commitment to zero contacts along with our electrical cooperative friends across the nation. We are committed to eliminating serious injuries and fatalities due to electrical contact and continuing to keep safety our top priority.

You'll see a 'commitment to zero contacts' sticker above each door handle as one more reminder to our employees to be safe. Our members, coworkers, and families depend on it.

KENERGY BOARD ELECTION WINNERS ANNOUNCED

Jonathan Ayer of Calhoun was re-elected to the Kenergy board for another three years. Mr. Ayer, who has represented District 10 - Ohio/McLean counties, since 2012 was challenged by Dr. Joe McCarty of Centertown.

Incumbent **Bob White**, representing District 2, faced no opposition and will retain his seat for another three-year term on Kenergy's Board.

John Warren, who has represented District 7 since 2006, did not seek re-election. **Dr. Eddie Leach** of Masonville was the only candidate who submitted a petition to have his name placed on the ballot and was declared the winner of the District 7 board seat without an election.

Jonathan Ayer

Bob White

Dr. Eddie Leach

SAFEGUARD ELECTRONICS WITH SURGE PROTECTORS

Surge protectors help save your electronics from power surges or increases in voltage significantly above the intended level in the flow of electricity.

Nearby lightning strikes are most often associated with power surges in your home's wiring that can damage electronics and appliances. But smaller power surges are far more common and can happen at any time of day, regardless of weather.

Point-of-use surge protection devices protect the items directly plugged into them. This surge protector can't stop the surge, but it instead diverts the surge to the ground, away from your electronic devices.

REPLACING SURGE PROTECTORS

- After absorbing powerful surges and spikes, your surge protector eventually will turn into a typical power strip, unable to protect your electronics.
- When a voltage increases beyond the amount the appliance or device can handle, the surge protector diverts the extra voltage to the metal oxide varistor component in the surge protector. This extra voltage stays in the surge protector and gradually destroys that component. Eventually, the surge protector will no longer be able to absorb more surges.
- Lifespans vary depending on how many surges your surge protector is forced to try to absorb. The longer it's been since you last replaced your surge protector, the more voltage your surge protector has absorbed and the more likely you should replace it.

GONZALOCALLE/ADOBE STOCK

Kenergy lobbies are now open during normal business hours!

Members may continue to utilize our no-contact options to conduct business: SmartHub mobile app, website, drive-thru windows or by calling one of our member service representatives at 800-844-4832.

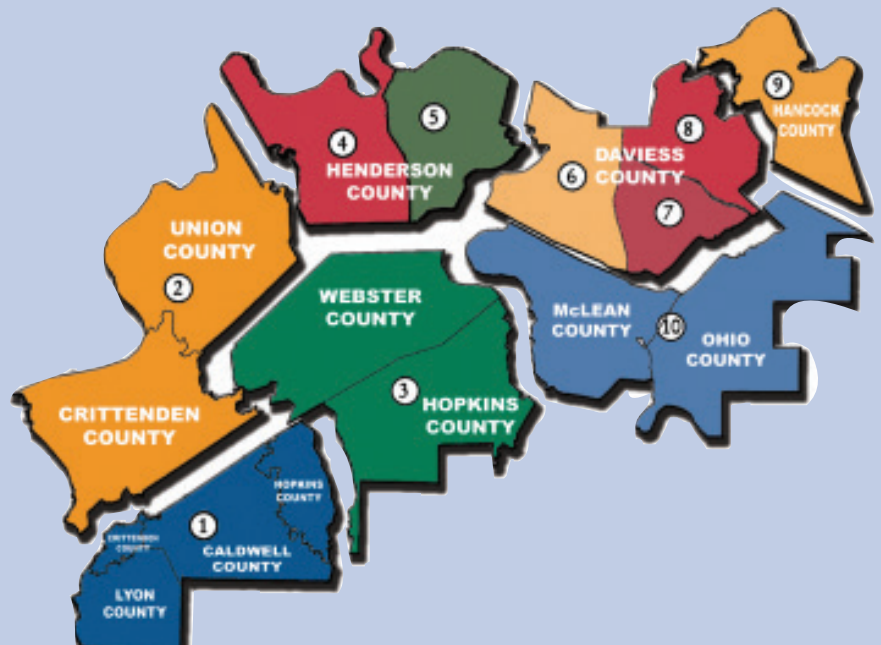

DISTRICT 4 BOARD VACANCY

A search committee consisting of three board members and three District 4 Member Advisory Council (MAC) members has been appointed to begin the process of selecting a replacement to fill the board seat previously held by Susie Givens, who passed away in March. The District 4 term expires in June 2023.

Kenergy board members Bill Denton, Richard Basham and Craig Roberts will serve on the committee along with MAC members Rodney Bozarth, Rebecca Logsdon and Tony Rone.

Only members who reside in the district and have a Kenergy membership in their name will be eligible to serve. Anyone who is interested in being considered for the position should contact Debbie Hayden at 270-689-6101 or dhayden@kenergycorp.com to request an application. Applications must be returned by July 31, 2021.

4th OF JULY CLOSURE

All Kenergy offices will be closed Monday, July 5th in observance of the Independence Day holiday. We hope you enjoy a safe holiday with family and friends!

WAYS TO \$AVE

LED light bulbs use 75% less energy and last 25 times longer than incandescent lighting.

GRILLED CORN SALSA RECIPE

When corn is in season, this recipe can't be beat! Just grab your favorite tortilla chips and you have a great appetizer for a cookout or taco night!

INGREDIENTS

FOR THE SALSA

5 ears of yellow corn,
husks removed
2 tbsp. extra-virgin olive oil
Kosher salt
1 ripe avocado, chopped
1 cup quartered grape tomatoes
1/2 red onion, finely chopped
2 tbsp. sliced basil

FOR THE DRESSING

1/4 cup extra-virgin olive oil
1/3 cup lime juice
1 clove garlic, minced
1 tsp. crushed red pepper flakes
Kosher salt

DIRECTIONS

1. Brush corn with oil and season with salt. Grill for 8 minutes, or until the kernels begin to char. Let cool slightly, then slice the kernels off the corn with a knife.
2. In a large bowl combine corn, avocado, tomatoes, onion and basil.
3. In a medium bowl, combine oil, lime, garlic and red pepper flakes. Season with salt and whisk until smooth. Pour mixture over the salsa and stir until ingredients are fully coated.
4. Serve with tortilla chips.
